www.constructiondieselequipment.com.au

The XLS705A is a reliable asphalt distributor built for binder spraying, tack coats and sealing works across rural, regional and civil construction sites. With a 7 m³ binder tank and a maximum spray width of 4.5 metres, it's designed for sealing crews who need consistent spray patterns, predictable operation and a machine that handles long days in tough Australian conditions. Simple controls, strong heating performance and a dependable pump system make the XLS705A a solid everyday asset for road maintenance teams.

KEY PERFORMANCE SPECS

Binder Tank Capacity:	7 m ³
Max Spray Width:	4.5 m
Application:	Binder spraying / asphalt distribution

ADDITIONAL SPECS

Heating:	Integrated heating system
Pump System:	Controlled binder circulation and spray

KEY BENEFITS

- 7 m³ binder/asphalt tank for long sealing runs
- Up to 4.5 m spray width for wide road coverage
- Steady spray system for even binder application
- Strong heating and circulation for consistent binder temp
- Built tough for rural and regional job sites
- Easy to operate — suits mixed-ability crews
- Low maintenance with simple daily servicing

BEST SUITED FOR

- Tack coats and binder spraying
- Rural and regional road sealing
- Council and civil maintenance programs
- Shoulder work and prep for chip sealing
- Contractors needing reliable, uniform spray coverage

WHAT CREWS LIKE ABOUT IT

- Reliable, consistent spray coverage
- Strong heating and stable binder temperature
- Easy, predictable controls
- Durable on rough regional roads
- Great for council and contractor sealing teams
- Low-fuss cleaning and maintenance
