Width**

1.8~3.4 (m)

**Max Paving
Width**

4.5 (m)

**Max Paving
Thickness**

260 (mm)

www.constructiondiesequipment.com.au

The RP455W is a wheeled asphalt paver designed for suburban roads, carparks, commercial pavements and civil works where manoeuvrability and fast job-site movement matter. With a paving width of 1.8–4.5 metres and a smooth, reliable feed system, it's ideal for local government crews and civil contractors tackling tight-access or stop-start urban projects. The wheeled setup delivers fast travel between sites without the need for floats, making it a highly practical everyday paver.

KEY PERFORMANCE SPECS

Engine:	6 Cyl
Power:	132 kW / 177 HP
Weight:	26300 kg

ADDITIONAL SPECS

Overall Width:	2500 mm
Emission Standard:	Stage III

KEY BENEFITS

- 23–26 tonne class for large road and civil projects
- Pneumatic kneading action for premium, uniform asphalt finish
- Wide compaction width for maximum coverage
- Reliable Cummins engine performance
- Stable and predictable handling on long runs
- Simple, operator-friendly controls
- Built tough for hot mix, long shifts and Australian conditions

BEST SUITED FOR

- Highway construction
- Major road building and sealing
- Industrial and commercial pavements
- Council and infrastructure works
- Large asphalt crews
- Projects requiring premium surface uniformity

WHAT CREWS LIKE ABOUT IT

- Premium, tight asphalt finish
- Wide coverage — great for highway work
- Reliable, consistent compaction results
- Easy, comfortable operation
- Built for big civil and road projects
- Low-fuss servicing and daily checks
