CONE CRUSHER

XPY1100

Capacity (t/h)

110-440

Travel Speed

0.8-1.1 km/h

Curb Weight

63750 kg

www.constructiondieselequipment.com.au

The XPY1100 is a versatile cone crusher designed for secondary and tertiary crushing in quarry, mining and civil aggregate production. With a 110–440 t/h capacity range, it delivers strong shaping performance, consistent product sizing and reliable operation in tough conditions. Built for contractors and quarries that need a dependable mid-to-high capacity crusher, the XPY1100 handles hard stone, abrasive rock and recycled materials with ease.

KEY PERFORMANCE SPECS

Type:	Cone crusher
Capacity:	110–440 t/h

ADDITIONAL SPECS

Typical Applications:	Quarry, mining, civil, recycling
-----------------------	----------------------------------

KEY BENEFITS

- 110–440 t/h capacity range for flexible production
- Ideal for secondary and tertiary crushing stages
- Excellent shaping and product consistency
- Heavy-duty construction for abrasive materials
- Operator-friendly controls and straightforward setup
- Reliable performance across long shifts
- Low maintenance with easy access points

BEST SUITED FOR

- Quarry aggregate production
- Mining and hard-rock processing
- Civil construction material supply
- Shaping after primary jaw crushing
- Contractors needing consistent, high-quality aggregate

WHAT CREWS LIKE ABOUT IT

- Strong squeezing and shaping performance
- Handles hard, abrasive rock confidently
- Smooth, consistent output
- Easy to adjust and maintain
- Reliable for high-volume contract crushing
