The GR5505Tpro is the big dog of the XCMG grader lineup — an ultra-heavy, high-horsepower machine built for the toughest earthmoving and major civil jobs in Australia. With huge blade capacity, extreme engine power and a seriously heavy chassis, it's designed for long runs, bulk trimming, mine-site roadwork and large infrastructure builds where you need maximum stability, maximum push and a grader that won't back off, no matter the ground conditions.

KEY PERFORMANCE SPECS

Engine:	2806D-E18TA
Operating Weight:	74,000 kg
Size:	16,430x45,60x48,10

ADDITIONAL SPECS

Blade Length:	7,300 mm
Emission Standard:	Stage III

KEY BENEFITS

- Massive horsepower for extreme grading workloads
- Heavy-duty chassis for unmatched stability
- Long blade options for big trimming and shaping jobs
- Built for haul roads, mine sites and major civil projects
- Reliable performance under constant, heavy load
- Comfortable cab with excellent visibility
- Designed for contractors pushing serious production

BEST SUITED FOR

- Large civil earthworks
- Major road construction
- Mining and haul road maintenance
- Bulk trimming and extensive cut/fill
- Large quarry and industrial sites
- Contractors needing the biggest, strongest grader available

WHAT CREWS LIKE ABOUT IT

- Absolutely enormous blade power
- Extremely stable in all conditions
- Ideal for mine sites and high-output contractors
- Smooth, predictable operation for such a large unit
- Handles massive workloads without strain
- Excellent visibility for precision work
- Built for the heaviest, longest civil runs
