**Engine
6 Cyl**

**Horse Power
177HP**

**Op Weight
26300 kg**

**Work Width
2360 mm**

www.constructiondieselequipment.com.au

The XP265S is a heavy-duty 23–26 tonne pneumatic (multi-tyre) roller designed for large-scale asphalt works, highway construction and major civil projects. With a wide multi-tyre layout and strong kneading compaction, it delivers a smooth, uniform surface finish that vibrating rollers can't match. Built for high-output asphalt crews, this machine is all about consistency, control and premium finishing performance.

KEY PERFORMANCE SPECS

Engine:	6 Cyl
Power:	132 kW / 177 HP
Weight:	26300 kg

ADDITIONAL SPECS

Overall Width:	2500 mm
Emission Standard:	Stage III

KEY BENEFITS

- 23–26 tonne class for large road and civil projects
- Pneumatic kneading action for premium, uniform asphalt finish
- Wide compaction width for maximum coverage
- Reliable Cummins engine performance
- Stable and predictable handling on long runs
- Simple, operator-friendly controls
- Built tough for hot mix, long shifts and Australian conditions

BEST SUITED FOR

- Highway construction
- Major road building and sealing
- Industrial and commercial pavements
- Council and infrastructure works
- Large asphalt crews
- Projects requiring premium surface uniformity

WHAT CREWS LIKE ABOUT IT

- Premium, tight asphalt finish
- Wide coverage — great for highway work
- Reliable, consistent compaction results
- Easy, comfortable operation
- Built for big civil and road projects
- Low-fuss servicing and daily checks
