

CONSTRUCTION DIESEL EQUIPMENT

**VICTORIA'S EXCLUSIVE
XCMG ROAD MACHINERY DEALER.**

LANDFILL COMPACTOR **XH285**

Engine

Cummins

Power

242 kW

Weight

28,500 kg

Emission

Stage III

The XCMG XH285 Landfill Compactor is a heavy-duty machine designed for bulldozing and compacting solid fill in landfill sites, reducing landfill footprint and extending service life. Built for continuous operation in demanding conditions, it delivers reliable performance and powerful compaction where space optimisation matters most.

KEY PERFORMANCE SPECS

| | |
|---------|-----------|
| Engine: | Cummins |
| Power: | 242 kW |
| Weight: | 28,500 kg |

ADDITIONAL SPECS

| | |
|---------------|--------------------------|
| Size (L×W×H): | 8,300 × 3,830 × 3,845 mm |
| Emission: | Stage III |

KEY BENEFITS

- Powerful landfill and backfill compaction capability
- Heavy-duty, durable structure for tough environments
- Efficient operation for long shifts
- Optimised power and traction for varied terrain
- Intelligent control and operator-friendly design
- Reduced operating costs and robust reliability

BEST SUITED FOR

- Landfill waste compaction projects
- Large foundation and backfill compaction
- Road and earthwork fill preparation
- Civil and infrastructure compaction needs
- Sites requiring high density and reduced footprint

WHAT CREWS LIKE ABOUT IT

- Strong compaction force for dense fill results
- Stable performance in continuous operation
- Built for rugged, demanding site work
- Easy to handle across terrain types
- Reliable engine and power delivery
