The XCMG XH235L Soil Compactor is a heavy-duty machine designed for efficient soil and fill compaction on large civil and earthworks projects. With strong compaction force, reliable Cummins power and a robust structure, it delivers stable performance in demanding ground conditions.

### KEY PERFORMANCE SPECS

Engine:	Cummins
Power:	194 kW
Weight:	23,800 kg

### ADDITIONAL SPECS

Size (L×W×H):	8,300 × 3,500 × 3,845 mm
Emission:	Stage III

### KEY BENEFITS

- Powerful soil and fill compaction
- Reliable Cummins engine performance
- Durable build for tough site conditions
- Efficient operation for large earthworks
- Stable traction on uneven terrain

### BEST SUITED FOR

- Road base and sub-base preparation
- Large earthworks and foundation compaction
- Highway and municipal projects
- Dam, airport and infrastructure works
- Sites requiring deep, uniform soil density

### WHAT CREWS LIKE ABOUT IT

- Strong, consistent compaction results
- Reliable power and smooth operation
- Handles heavy workloads with ease
- Stable and predictable to operate
- Built tough for long service life
