The XCMG XH285L Soil Compactor is a heavy-duty machine built for high-density soil and fill compaction on large civil and earthworks projects. With strong compaction force, reliable Cummins power and a rugged design, it delivers stable, efficient performance in demanding ground conditions.

### KEY PERFORMANCE SPECS

Engine:	Cummins
Power:	242 kW
Weight:	28,500 kg

### ADDITIONAL SPECS

Size (L×W×H):	8,300 × 3,830 × 3,845 mm
Emission:	Stage III

### KEY BENEFITS

- Powerful soil and fill compaction
- Reliable Cummins engine output
- Heavy-duty build for tough conditions
- Efficient operation on large sites
- Strong traction and stability

### BEST SUITED FOR

- Road base and sub-base compaction
- Large earthworks and foundation works
- Highway and municipal projects
- Dam, airport and infrastructure sites
- Heavy fill compaction jobs

### WHAT CREWS LIKE ABOUT IT

- Strong, consistent compaction results
- Smooth and reliable operation
- Handles heavy workloads easily
- Stable on uneven terrain
- Built tough for long service life
